“As Head Green Keeper at Golf Club Wasserburg Anholt, Germany I have used TerraCottem® Universal at various occasions. In 2002, I incorporated the product into the root zone of tee 9 in order to establish and maintain excellent root and grass growth. In 2009, I decided to plant some trees using the same product. All trees planted survived and are doing well.”

Tee 9: With TCU

without TCU

September 2009 – Trees planted using TCU
